Session Titles & Descriptions

Session #1 8:45am – 10:45am (2 hours)

Making Sense of Sensory Play: Infants ~ Participants will learn about development birth-18 months. You will gain knowledge about the importance of sensory play that will increase their skills

Bringing Books to Life ~ We will be exploring books about animals and animal characteristics your students will love along with creating some fun projects

Pumpkins, Pumpkins Everywhere ~ You will need to bring a **SMALL SUGAR PUMPKIN** to this training. This class will be hands on about letting children learn & discover on their own without teachers telling them what they will see or what something will do.

Physical Activity in Early Care ~ participants will review their physical activity practices & compare them to best practice recommendations, learn ways to incorporate new physical activity ideas into current routines & discuss ways to engage families.

Session #2 11:00am – 1:00pm (2 hours)

Sense ad Sensory with Toddlers ~ Participants will learn about development 18-36 months. You will gain knowledge about the importance of sensory play and developing skills as well as learning new activities.

Let's Mix it Up! ~ We will be using colors & Literature together, we will be teaching about general concepts, listening to literature and participating in art to bring teaching concepts to a fun new level for teachers

NASCAR: Math & Science ~ We will explore math & science concepts using hot wheels! How fast, slow, heavy, light, counting, measuring, etc.. As well as STEM activities that children can explore on their own independently

Nutrition in Early Care ~ Participants will review their current practices around nutrition and beverages served to children, review best practice recommendations & learn ways to improve and apply healthier practices in the classroom

LUNCH 1:00PM-1:30PM ~ Lunch will be Provided.

(You may also bring a lunch or go somewhere to eat)

*****NOT RESPONSIBLE FOR FOOD ALLERGIES*****

Session #3 1:45pm – 3:45pm (2 hours)

Sensory Play w/ Pre-K ~ You will learn the importance of meeting sensory needs of children from 3-5 years and gain knowledge about sensory learning & how to develop skills to provide a variety of activities throughout the day and meet PRE-K standards

Literature & Art ~ We will be exploring literature and art using black and white materials and creating projects and crafts about the concept of process not product

Stem: Turkeys & Thanksgiving ~ We will be integrating math & science in units that are fund, exciting and interesting for teachers and children
